Mother and Daughter Banquet a Successful Event

The Arrowwood Canadian Girls in Training held a very successful mother and daughter banquet in the Ingraham Block last Wednesday evening. Miss Gilhooly, secretary of the girl's work board in Canada, was present and helped in no small way to make the evening a success.

The meeting opened by all singing "O Canada." Miss Verna Ingraham the leader introduced Miss Gilhooly and welcomed the mothers. After the girls had repeated their purpose, the following program was enjoyed:

Reading—Clara Service
Intermediate Group Song
Sing-song

Talk by Miss Gilhooly
Reading—Marjorie Leonard

During Miss Gilhooly's talk she pointed out the importance of the C. G. I. T. work and stressed the need of providing entertainment for a girl suitable to her age.

At the conclusion of the program the mothers and daughters took their places at one long table, where a delicious lunch was served.

"Taps" brought to a close a very successful event.

The girls will go into camp at the river on July 6th, which will last until July 13th. This camp is for girls between the ages of 12 and 18 years.

School Examinations Start July 16

The annual department of education examinations will commence on Thursday June 16 according to an announcement made by Hon. Perrin Baker, minister of education. The minister said that papers had been set, passed by the board of revision and were now being printed.

In general, the system of writing examinations will be the same as that adopted last year. Written papers will be handed in on all subjects in Grades 11 and 12 and all subjects in Grade 10, with the exceptions of literature and composition.

In the lower grades, up to and including Grade 9, promotion would be on the basis of recommendation by the teacher as a result of the years work. If they so desire, teachers can submit papers to their pupils, but they will not be corrected by department markers. This system worked satisfactorily last year.

A gratifying feature of the whole season's program, he said was a large increase in the prospective number of students participating in the annual tests.

Funeral services for Norman G. Holmes, well known old-timer of Vulcan, Claresholm and Granum districts, who died Tuesday, May 10th at his residence, were held Thursday afternoon from Rev. James McNeill officiating. Interment followed in Burnside cemetery. Pallbearers were: Dr. A. G. McMillan, J. Horne, Bruce Sproat, H. Fink, A. W. Maguire and A. Graham.

BASKETBALL Arrowwood Girls Defeat Milo in Close Game

The Arrowwood High School girls motored to Milo last Monday evening to engage in a friendly game of basketball with the Milo team. Several of the former Milo stars were missing from the lineup and Arrowwood's team was also a new club. The game was very evenly contested and it was not until the last minute of play that the game was decided in Arrowwood's favor, 5-4.

A return game will be played in Arrowwood in the near future when it is hoped a good game will be assured.

Arrowwood team: Jean MacLeod (2), Irma Arney (1), Edna Beagle (2), Evelyn Burriss, Audrey Ward, Dorothy Brown, Irene Kelly, Mary Dumka.

Baseball

Queenstown 10,
Arrowwood 7

The ball tossers swung into action, for the first time of the season last Wednesday, when Queenstown and Arrowwood met in an exhibition affair. From the beginning it was evident that there would be plenty of hitting and Queenstown scored twice in the first. Arrowwood counted three in the half of the inning. At times MacLeod was unsteady in the box and poor support on the part of the fielders proved costly to the home boys. The game ended 10-7 for Queenstown. MacLeod hit for three bases in the third and McCullough circled the bases in the first, with one on.

All the boys need is practice, and with the support of the fans some good baseball should be assured.

Don't forget the baseball meeting called for Friday night in the Sunshine Shoe Shop at 8.00 p.m.

Farm Outlook Reports

Two outlook reports have recently been received. Dr. W. Allen and Professor E. C. Hope of the Department of Farm Management, University of Saskatchewan, have recently published in mimeograph from The Farm Outlook for Saskatchewan.

While no attempt is made to forecast prices the report brings together valuable information which should be a guide to the farmer. There is no formula for immediate financial success in agriculture but the utilization of facts in planning a business is the first step towards success. The report emphasizes the fact that wheat production despite low prices is the enterprise in which many Saskatchewan farmers have the greatest comparative advantage.

"Summaries of data collected from Turtleford, Kindersley and Davidson indicate that from 497 farms providing adequate financial information 89 per cent were operated by owners or part owners, and 11 per

(Continued from page 1)

Sports Day

Public Meeting Called for Friday Night

A meeting of all those interested in the arrangement for the Annual Sports Day, June 3, has been called for Friday (tomorrow) evening, 8 o'clock at the Sunshine Shoe Shop. It is hoped a large turnout will be on hand to support the sports of our town. All ball fans are also requested to attend for the purpose of organization. Let's be there!

\$30,000 to \$40,000 Fire at Okotoks Last Saturday

Fire which started in the rear of the Martin block, on the north side of Main street, at noon Saturday, wiped out four buildings between the Royal Bank and the Bank of Montreal.

At first it was thought that the whole central part of the town was in danger and that the damage would be much greater.

The estimated loss will be between thirty and forty thousand dollars.

The Martin Block went first, in which were located Dr. McLaren's dentist office, Harold Littlefield's barber shop, and Frank McKay's office, Imperial Oil Agent.

P.-T.A. Dance a Success

The dance sponsored by the P.-T.A. and held last Friday night in the Arrowwood School was a decided success. Owing to the busy-ness of the season the crowd was not as large as had been anticipated. Nevertheless a lovely crowd of Queenstown, Arrowwood, and Mossleigh people were present to enjoy themselves. Music was supplied by Mrs. Asselstine's orchestra of Queenstown and met with the favor of all. The proceeds, amounting to about \$15 are to be used to aid financially the coming School Fair.

RECEIPTS AND EXPENDITURES	
Taken in at door	\$36.10
Orchestra	\$15.00
Janitor	3.00
Printing	2.00
Net proceeds	16.10
	\$36.10 \$36.10

Fishing Starts Monday

One day later than usual, fishing on Alberta streams will open this year on Monday, May 16, according to announcement made last week by R. T. Rodd, fisheries inspector.

Fishing privileges include angling for perch, pickerel, jackfish and goldeyes. Trout fishing on North Saskatchewan and Red Deer rivers and their tributaries will open the same day.

The lions would not eat Daniel because he was all backbone.

Wheat Bonus Expires June 15

Announcement to all licensees issuing the federal five cent bonus on wheat that the bonus expires on June 15, has been issued by the Board of Grain Commissioners for Canada. Any grower claiming bonus must deliver the wheat on or before June 15 to a licensed elevator, commission merchant, track buyer or grain dealer.

Forest Destruction In Alberta Serious

Considered from the standpoint of destruction of forest resources, the fire season of 1931, reports the Alberta Department of Lands and Mines, was probably the most disastrous on record.

Weather conditions prevailing during the winter of 1930-31 were such that fires started readily and burnt into the ground, thus providing a start for destructive fires in the spring. On the forests of the east slope of the Rocky Mountains it was necessary to fight fires on several occasions during the winter.

As a result of winter conditions and of the weather and ground conditions in the spring whereby fires spread rapidly, fires set for the purpose of cleaning land and fires from other causes, assumed dangerous proportions and resulted in an enormous loss of forest resources and of private property. In addition the productivity of the soil was greatly damaged.

An examination of fire causes state officials in charge of forest preservation, leaves no doubt as to the responsibility of individuals and indicates that little or no thought was given to the results. In many instances the danger to life and to the destruction of public or private property was entirely overlooked. Improvements on neighboring lanes were destroyed with no thought of the importance of individual welfare in the success of the community.

In order to clear comparatively small areas, fires were indiscriminately set which destroys large areas of important forest cover, which areas in a great many instances would at a later date contribute in no small way to the welfare of the individual and the community.

Settlers' fires dealt with by the forest reserve number 136, being 21.86% of the total fires dealt with.

"Campers, which includes all forest travellers, contributed to the destruction in no small way. Carelessness, laziness and ignorance no doubt explains why 147 fires are known to have originated with campers. It is difficult to understand why people who go to the forest for recreation or who obtain their livelihood from the forest should be guilty of such carelessness. In the province of Alberta are found conditions more favorable to outdoor recreation than in many countries. There is an abundance of game birds, fish and big game. These however, cannot exist if forest destruction continues at the rate of 1931."

Gleichen to Celebrate Empire Day With Program of Sport

At a meeting of the Gleichen Agricultural Association held there on Friday, May 7th it was decided to celebrate on May 24th, with the usual program consisting of a baseball tournament, children's sports, Indian pony races and a big dance at night.

It is expected that the Bassano, Queenstown, Arrowwood and Gleichen teams will take part in the tournament.

Rockyford Loses One of Its Oldest Settlers

The following item was taken from the Rockyford notes in the Strathmore Standard:

"Rockyford lost one of the oldest settlers of the town in the passing of Mr. T. A. Weins on Wednesday afternoon, May 4th. He leaves to mourn his loss, his widow, two sons, Joe of Arrowwood and Raymond of Rockyford, and three daughters, Mrs. Dunlop of Chicago, Mrs. Crough of Drumheller and Mrs. Brown of Rockyford. Mr. Weins and family were well known in the district having opened the pioneer store of the town in 1911. He later sold this to Mr. Ryan and was interested in farms for his boys. He has been in poor health for several years and had been confined to his bed for a number of weeks. Requiem High Mass was conducted at St Rita's Church on Saturday morning with Rev. Father Killen officiating. Burial took place in the town cemetery. The very large crowd in attendance and the quantities of floral tributes testified to a slight degree the esteem in which Mr. Weins was held."

Arrowwood Aces Are Victorious

The basketball season for the Aces started off with their taking their first game from Blackie High School, 22 to 18.

The team worked hard throughout the entire game and showed the effective work of their coach, Melvin Bowman, but through the accurate shooting of Hildred Vancil and Dorothy Vancil, the quintet were victorious.

The Blackie girls showed good form throughout, and fought hard to hold the honors in their own town but were unable to do so.

The line up

ACES

Ruth Beagle c, Florence Norton l.f. (4), Dorothy Vancil r.f. (8), Carol Christensen l.g., Sarah Duncan r.g., Hildred Vancil c. (10).

BLACKIE

Bessie Cuerin c. (5), Irene Kumlun l.f. (8), Mickey Easterbrook l.f. (4), Doris Eaty l.f., Eleanor Tigner r.f. (1).

Have We Reached the Maximum?

The war in the East has been settled and the Lindberg baby found. And out of the universal sympathy extended to the bereaved parents there shines at least one clear ray, viz, the two were not connected. While we openly acknowledge our misjudgment in feeling that some how the two were connected yet we just as frankly make no apologies for having offered it as a solution. To hammer out the brains of a helpless babe, to lie by reporting it safe and then to take the ransom money is so far beneath using a fake kidnap to divert attention from a crisis in the East, that we are almost ashamed to write the two in the same column. Now, we understand, that rumor has connected the affair with Capron's gangsters. Since this much has come to light we can forgive the wildest guesses. Some day a Phillip Gibb may write a NOW IT MAY BE TOLD and the truth will come to light.

Rumors regarding Captain Kidd and pirate ships have reached our ears. The murder of royal descendents and political opponents are established facts. But even the two Chicago boys murdering only to get the thrill passes into the background before the present enormity. We have always felt that the average "killer" was dealt with too harshly but the unabridged Webster does not contain the word that will describe this outrage.

Very few years ago, in the war stricken area, mothers were losing their babies wholesale. And accident and disease are taking them on every hand. We don't have to go out of the village to find bereavement as keen as ever pierced a Lindberg heart. That side of it is terrible and we do not want to say one word to belittle it. But the other side looms so luridly that it blinds.

Whoever committed the crime or whatever the reason for it, it was backed by wealth and brains. To have concealed it under the cloak of kidnapping required some keen planning. But were wealth and brains ever used to such a diabolical purpose?

This time there has been borne upon us in the most tragic way the fact that civilization's way out can never lie in shrewdness. Even trained intellect is no guarantee of society's safety. For some years there has been no crime of national or international importance but has had college trained brains back of it. To our sorrow we learned that our

own Alma Mater is smeared by the waterpower scandal in Quebec. Every gain for the good of humanity contains within it the possibility for greater evil. Comforts and conveniences will never create stability. It is the control of these new powers that is needed most today. Our task is growing men and women who will scorn using the automobile, the radio, the aeroplane, etc for criminal purposes. If the mental powers which have been exerted in this case to avoid detection had been used to conquer some disease how much farther ahead humanity would be today. Our other growths have outgrown our sense of direction and control.

But is it also a product of democracy? We have always wondered why the go-between was not immediately arrested. The fact that any person or persons are able to act in such a capacity reveals corruption somewhere. But whatever allowed the crime in the first place and latter its concealment, we cannot help but feel that crime has reached the absolute extreme. The imagination refuses to picture anything more hideous.

UNUS SOLUS

New Use For Old Tires

It is clear to the most casual observer that the annual supply of wornout motor tires far exceeds the purely seasonable demand for home-made dock bumpers, life preservers and apple-tree swings. For the millions of tires not used in the manner described, there must be found a use. The Canadian National Institute for the blind has found a way to dispose of many old tires, and at the same time provide a new occupation for some of the sightless Canadians it serves. The Institute workshops are now busy making rubber door mats out of old rubber tires. Suitable rubber is flattened out and pared to an even thickness. Uniform pieces are then punched out and the sightless workers make the mats by stringing these bits of rubber on steel wires and locking them in place with metal clips.

Finished mats are thick, springy and pliable, and effective mud removers. The demand for these mats is said to be excellent all across Canada. Incidentally, blind workers in New Zealand obtain their supply of mat making materials from the workshops of the Canadian Institute in Toronto.

Registration of Automobiles Should be Changed

Necessity for changing the registration of an automobile as soon as it is sold was impressed on motorists at Montreal, when Chief Justice R. A. E. Greenhouse condemned a prior owner of a car involved in an accident to pay \$15,000 jointly and severally with the real owner of the vehicle who was driving it at the time of the accident. The judgment was considered of extreme importance to all car owners and dealers.

On a quarter-section a one-inch rain fall is 18,150 tons and on a section 72,600 tons

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

Milk-Borne Disease

The food value of milk products is generally recognized. Everyone understands that milk provides most of the food essentials required by the body, and that milk should, therefore be included in the diet regularly at all ages.

Pure milk is a most valuable food, impure or contaminated milk is particularly dangerous. Impure milk is just as dangerous in the country as it is in the city. Dirty milk is dirty milk no matter where it is. Milk can be, and frequently is contaminated with the germs of disease in the country. Contaminated milk spreads disease to country users just as readily as it does to the purchasers in the town or city.

It is more than fortunate that milk can be made perfectly safe by pasteurization. The process of pasteurization implies the heating of milk to 145 degrees Fahrenheit, holding it at that temperature for thirty minutes, then cooling it quickly and keeping it in the town or city.

The reason why milk should be pasteurized is that no one can tell, simply by looking at milk whether it is safe or not. The only practical way is to pasteurize all milk so that if there are any disease germs present, they will be destroyed, for that is the effect of pasteurization.

Germs of tuberculosis, diphtheria, scarlet fever, septic sore throat, infantile paralysis, typhoid fever and undulant fever are sometimes carried in milk. In certain instances, the disease germ enters the milk direct from the cow. The bovine type of tuberculosis, which affects younger children causing many of the bone and glandular cases of the disease, resulting from the use of raw milk from tuberculous cows. Undulant fever results from the use of raw milk from cows infected with contagious disease.

ases

Milk may be contaminated from the water supply. If the well water is contaminated by the germs of typhoid fever and the milking utensils are washed in that water unboiled, the milk is almost sure to be a carrier of typhoid fever germs.

The most common way in which milk becomes contaminated is through some handler of milk who is ill or is not cleanly in his habits. Unwashed hands are in many cases responsible for the spread of disease germs to milk.

There is no reason why milk should not be pasteurized and there many reasons why it should. Our main safeguard against milk-borne disease is pasteurization. Why not make use of it.

Directions for home pasteurization will be sent upon request.

Owing to a demand for instruction in profitable placer mining, the Institute of Technology will offer a short course of two weeks beginning May 30 and running to June 11. This course will be under the direction of J. O. Howells, B.Sc., who is an experienced prospector.

Californian Farmer Wonders Why So Few Canadian Banks Fail

Inquiring about farming conditions in Western Canada and particularly the Peace River country, R. H. Bullard of 222 Myrtle road, Burlingame, California, recently wrote to the office of the board of trade Calgary. Though not a Canadian, Mr. Bullard stated that he had lived in Canada before and was anxious to get back.

"Everyone in the States is wondering why Canada hasn't had a bank failure for many years," he writes "as there is one here every day, somewhere."

Farm Outlook Reports

(Continued on page 3)

cent by tenants. Of the 441 owners or part owners, 8 per cent were reported free from debt, the remaining 92 per cent having debts ranging from \$4,782 per farm. Debts against real estate secured by mortgages plus unpaid amounts on agreements of sale were reported by 81 per cent of all the 441 owners, and amounted to \$4,341 per farm for each farmer having this class of debt.

The report deals with wheat, hogs, cattle, sheep and wool, poultry, butter and the future

trend of the general commodity price level.

"As continued low prices of live stock and live stock products are to be expected during 1932, recovery in wheat prices will probably occur at about as early a date as for animal enterprises. Recovery in the prices of live stock and live stock products might be expected in about the following order: poultry products, hogs and sheep, butter and cattle."

He: "Which do you prefer—a man with a past or one with a future?"

She (truthfully): "One with a present."

Here and There

Practically an egg a day is eaten by every man, woman and child in Canada. The average per capita yearly consumption of eggs in the Dominion is 361, the highest of any country, according to an official computation.

Canada's gold production in 1931 reached the new high total of 2,682,776 ounces valued at \$55,457,900. This is 27.6 per cent above the 1930 production. Of this total the province of Ontario accounted for 2,079,762 ounces valued at \$42,992,288.

New Brunswick can now claim the rare distinction of producing a white squirrel. The animal was caught by Jack Felsing of Fredericton who trapped it near the village of Lincoln. It has been bought by the government and will be mounted and placed on exhibition.

Hon. Cairine Wilson, Canada's only woman Senator, arrived recently at Quebec on board the Empress of Australia, from a trip through Europe. While in London she visited the House of Lords, but could not make comparisons with the Senate since the House was not in session.

Western plains have been given a boost by the rains of the last days of April and farmers of the prairie provinces are cheered by fine seeding conditions and good prospects of crop success, according to information summarized by the Canadian Pacific agricultural department crop report.

Following the announcement of reduced ocean rates on Canadian Pacific ships on the Atlantic, one of the largest parties ever to leave Toronto at this time of year for the Old Country sailed recently aboard the Duchess of York. There were 275 in the party drawn from all parts of eastern Ontario but mostly from Toronto.

The first cases of roses and shrubs from France for Grand Pre Park, Nova Scotia, arrived there recently. They are from Chateaufort, France, the gift of the mayor of that town. Chateaufort is one of the places in France where the exiled acadians settled after the Grand Pre expulsion.

Four stretches of New Brunswick trout and salmon waters were sold at the Department of Lands and Mines recently for prices totalling \$8,850. These leases for a term of 10 years are on the Restigouche, Kedgwick, Matapedia and Big Sevoile Rivers and prices paid are the annual rental charges.

Daylight saving time, commencing in Quebec and Ontario provinces May 1, occasioned little confusion on Canadian Pacific travel. Travellers have nowadays learned that the railways remain on standard time and govern themselves accordingly. The railway announced a number of train time alterations prior to the introduction of daylight saving.

From little Norfolk Island in the South Pacific, one of the smallest units in the British Empire, an excellent sample of beans for exhibition at the World's Grain Exhibition and Conference to be held at Regina July 1933, has just arrived. Norfolk Island is the scene of the punishment of the mutineers of the "Bounty" in 1856 but it has long ago changed from a penal to a prosperous settlement. (841)

Liverpool witnessed an unique event on April 5, when 750 British boys and girls disembarked from the Canadian Pacific liner Montrose, after a special cruise in the Mediterranean. A great London daily newspaper has offered prizes for the best essays written on the trip.

Some weird stories have been told of feline sagacity, but the open record would appear to be held by a Siamese cat, which "stowed away" on the Canadian Pacific liner Empress of Britain, when she left England to go to New York to begin her world cruise last winter. Pussy finally deigned to show herself when the ship was half-way through her long trip. The Empress got a rousing welcome in New York when her trip was over, and the much-travelled cat was delivered to its owner, in the Southern States. (837)

Friendship

If you walk as a friend you will find a friend

Wherever you choose to fare;
If you go with a mirth to a far strange land,

You will find that mirth is there.

For the strangest part of this queer old world

Is that like will join with like;
And who walks with love for his fellow man

An answering love will strike.

If you walk in honor, then honest men

Will meet you along the way;
But if you are false, you will find men false

Wherever you chance to stray
For good breeds good, and bad breeds bad—

We are met by the traits we show.

Love will find a friend at the stranger's door.

Where hate will find a foe,

For each of us builds the world he knows,

Which only himself can spoil
And an hour of hate or an hour of shame

Can ruin a life of toil,

And though to the utmost ends of earth

Your duty may bid you fare,
If you go with truth and a friendly heart.

You will find friends waiting there.

—I.O.O.F., Selected.

It is estimated that about 8,000,000 sugar maple trees in Eastern Canada are tapped annually.

CORDS IN

HOW MANY SUPERTWIST CORDS

IN THE AVERAGE GOODYEAR TIRE?

THE AVERAGE
GOODYEAR
TIRE?

\$3,000.00
IN CASH PRIZES

1st prize — \$1,000.00 cash
2nd prize — \$500.00 cash
3rd prize — \$200.00 cash
4th prize — \$100.00 cash
5 prizes, each \$50.00 cash
95 prizes, each \$10.00 cash
104 prizes totalling \$3,000.00

\$1,000.00 in cash—extra! It would look pretty good to you right now, wouldn't it? Well then, invest a few minutes of your time to get it. Entering this contest will not cost you a cent of your money—but you'll get some fun out of it, particularly if you like a little problem in arithmetic.

Here are the simple facts of the contest: Anyone from a household where a car is owned may enter.

There is no entry fee, nothing to buy, no special requirement. All tire dealers, all rubber company employees and the families of both are, however, debarred.

See the six Goodyear Tires of various sizes, types and ply-thicknesses on display here. Then estimate the number of cords in each, find the total, and divide by six to obtain the average. A section of Goodyear Supertwist Cord fabric is on display to help you make your estimate.

Get a standard entry form from us on which to make your entry.

Closing date: June 5th, 1932.
Address: "The Goodyear Supertwist Cord Contest," New Toronto, Toronto 14, Ontario.

Mr. J. Mackie, Sr., has greatly improved the appearance of his yard by the erection of a lattice fence.

From the date of this issue the price of Bread at the Arrowwood Bakery will be 2 loaves 15c, 4 loaves 25c or 16 tickets for \$1.00.

Tom Haythorne, Boys' Work Secretary, will be in Arrowwood Saturday evening in the interests of arranging a Boys' Camp at the river this July. At 8.30 p.m. a meeting of all those interested will be held in the printing office.

Last Thursday afternoon the Ladies Guild of the Arrowwood United Church, motored to Gleichen and were entertained at the manse by Mrs. Gilbert. At the conclusion of the business of the meeting two contests provided considerable amusement for the ladies, after which a very nice lunch was served by the hostess. The ladies departed about six o'clock, after spending a very enjoyable afternoon.

Mr. J. D. Baker, Deputy Minister and General Manager of the Alberta Government Telephones, called at the local office during the week on a tour of inspection throughout the Southern part of the Province. Among other official callers were Mr. W. C. Bruce, Plant Supt. of the A. B. G. T. from Edmonton, also Mr. McGregor of the McGregor Construction Co., whose gangs of over one hundred men have been called to assist the Government gangs in the repair of the lines damaged by the recent storm. It is interesting to know that when Mr. Saunders was serving his apprenticeship at Okotoks in 1905, Mr. Baker did the wiring in the telephone office (located in the Drug Store there at that time), when the telephone line was first built between Calgary and McLeod. Also later when Mrs. Saunders was the local agent at Okotoks, Mr. Bruce was then in the Traffic Dept. at Calgary and had charge of the Okotoks district. Mr. and Mrs. Saunders were glad to renew old acquaintances and also felt honored to receive calls from these higher officials.

Mr. and Mrs. E. Lewendon and Mr. Dumka were visitors to Lethbridge on Sunday.

Mr. and Mrs. R. T. Amery of Calgary were the guests of Dr. E. J. and Mrs. Liesemer on Sunday last.

Mr. L. E. Parnell returned on Saturday from Calgary where he had been attending a three day instruction course given by the Ford Motor Co.

Have you made an estimate of the number of Supertwist cords in the average Good Year Tire yet. See the Arrowwood Garage Advt.

Tuesday, May 24th being Empire day the stores will be closed. The post office will be open for half an hour after the mail is sorted.

Two aeroplanes from Lethbridge landed in the field at the rear of J. Mackie's residence on Tuesday at noon. During their stay here a number of our citizens became "high minded." We do not know their age, but we do know their weight.

The WAGIN' TUNG

Vol. 1, No. 40 Arrowwood, May 19, 1932 Items for Thot

"We Are Over the Hump"

The phenomenal growth that the grain is making in the Arrowwood district should convince the most pessimistic ones that we are living in one of the most productive districts in Alberta, and the spirit of confidence becomes more apparent every day.

"Elephant Brand" fertilizer for your gardens. We have it in any size package you may need.

John and George Christie are getting their spring work done in great style now. They have abandoned the old style slow horse outfits for the new modern tractor, which was delivered to them this week.

A John Deere Duck Foot cultivator for killing weeds and bringing up the clods which help to prevent soil drifting.

Bring in your grease cans and have them filled from bulk at reduced small quantity prices.

Autolene—the life saver for gasoline engines—quality and satisfaction at moderate prices.

It's service you are looking for, this is where you'll find it.

For that vacation trip you are planning it would be a good idea to exchange that old casing for a new Firestone. Two extra cord plies under the tread at no extra cost.
